jove

Welcome to JoVE!

We are pleased to have you as a member of our community. To utilize the faculty features that come with your institution's subscription and to ensure seamless access for your students, please begin by creating an account using your institutional credentials. Check which JoVE content you have access to here.

With JoVE, you can:

streamline lesson planning

save time on class preparation

support a variety of instructional models including flipped classrooms and distance learning

enable independent exposure to lab techniques and research

Here are several tips on how to get the most out of JoVE:

1 Embed JoVE content into Canvas.

JoVE supports various methods of content integration, allowing you to easily embed a single video or a set of videos into your learning management system. To learn how to embed JoVE content into Canvas, please see these instructions or watch this video.

2 Request a syllabus map from JoVE at no cost.

This is an easy and efficient way to streamline lesson planning. JoVE's on-staff Ph.D.'s can map JoVE content to any syllabus or lab training program.

- Browse the available maps here.
- Request a syllabus map tailored to your instruction or lab needs here.

3 Take advantage of our newest feature: playlists!

Playlists bring together a selection of JoVE videos to support specific instruction, laboratory, or research needs. Keep your favorites in one place, customize your lists, and share them with colleagues and students.

- Create your own playlists. Watch a how-to video or read these instructions.
- Request a customized playlist here.

With the option to add labels, you can easily organize your playlist, or even include questions to create engaging class assignments.

4 Use JoVE quizzes to improve student performance.

You can create, customize, and track quiz responses within Canvas. This allows you to test students' comprehension of topics and fill in the gaps.

- Ask your Curriculum Specialist for pre-made quiz files to upload.
- Watch a video on how to upload a QTI file with JoVE quiz content into Canvas, or see these instructions.

5 Browse our Faculty Resource Center for additional support.

You can find additional support and ideas in the Faculty Resource Center, such as tips for bringing your lab course online or guides to teaching with JoVE via Zoom.

JoVE is the leading producer and publisher of video resources with the mission to increase the productivity of research and education in science, medicine, and engineering.
